

AMENDMENTS TO THE SPECIFICATION

Please replace the following paragraphs of the specification. Applicant includes herewith an Attachment for Specification Amendments showing a marked up version of each replacement paragraph.

Please replace the paragraph beginning on page 6, line 30, with the following:

FIG. 3A shows a second embodiment of the trapdoor 4, where instead of using a motor ~~[[11]]~~ 12 and a string 13, the actuation of the trapdoor is an electromagnetic switch 30 adapted to open upon a signal from the electronic circuit 11. Due to the weight of the electrocuted animal, the trapdoor opens by pivoting around a pivot tap 31, and closes after release of the animal due to counter weights, here exemplified by a threaded bolt 33 and a nut 32.
